16,000L VACUUM TRUCKS

HDV16000 JETTER COMBO

Here at STG, we like to push the boundaries and with 3 years of extensive R&D we have developed our biggest vacuum truck yet!

Introducing the 16,000L Vacuum Semi Trailer which has been designed and built for any additions here in Australia or anywhere across the world. With its large capacity and versatility, the 16,000L semi trailer vac truck is perfect for all your large hydro excavation jobs as it spends more time on site and less time travelling to waste stations.

When looking at the competition our 16,000L vac semi trailer packs a punch as it was built for durability and reliability.

COMPATIBILITY:

Tri Axle ADR Compliant Semi-trailer
