**DIAMONDBACK -  
REAR LOADER**

# DIAMONDBACK - REAR LOADER

## PERFECT FOR CITIES, CAMPUSES AND PARK ROUTES

This modular machine is a big, tough, rear-load garbage collection system that is designed to maximise safety, load capacity and efficiency.

The Diamondback rear loader features a capacious hopper and rapid cycle time to maximise load rate and keep the machines moving fast along city streets where garbage bags or bins are still in use. The Diamondback also features a bin tipper suitable for all domestic wheelie bin sizes.

The large-capacity compaction chambers has high-speed rams capable of exerting nearly 600 kg/m<sup>3</sup> of pressure, enough to squash the hardest or bulkiest waste into submission.

### COMPATIBILITY:

4x2

### CAPACITY:

4.6 M<sup>3</sup> - 6.1 M<sup>3</sup>

### HEALTH AND SAFETY FEATURES:

- ✓ Integrated Ipad operator interface
- ✓ Proximity warning system
- ✓ Extreme wear and acid resistant body material
- ✓ Fire extinguishers
- ✓ 3rd party camera systems and DVR recording
- ✓ Custom engineered solutions
- ✓ Lighting (work lights, revolving beacons)
- ✓ Optional lift-zone monitoring
- ✓ Optional reverse monitoring
- ✓ Optional cyclist monitoring

### KEY FEATURES
