FRONT LOADER**

THE TUSK - FRONT LOADER

WASTE TRUCK

When you've got a lot of waste to collect, the Tusk Front-loader is the beast to have. The Tusk is built for the big jobs and the heavy, industrial collection routes. With an impressive 2'500 KG lift capability.

With a body capable of holding between 28m³ and 33.5m³, the Tusk is built to take big loads and minimise the number of times your drivers need to empty. This impressive capacity means that less fuel is expended in driving back to the disposal facility and the machine can stay on the job for longer.

Add to that the 6x4 or 8x4 wheel configurations and you can use the Tusk in almost any location and on any kind of terrain: an important consideration given Australia's often rough and isolated roads and long distances.

COMPATIBILITY:

6x4 or 8x4

CAPACITY:

28 M³ - 33.5 M³

HEALTH AND SAFETY FEATURES:

- ✓ Integrated Ipad operator interface
- ✓ Proximity warning system
- ✓ Extreme wear and acid resistant body material
- ✓ Fire extinguishers
- ✓ 3rd party camera systems and DVR recording
- ✓ Custom engineered solutions
- ✓ Lighting (work lights, revolving beacons)
- ✓ Optional lift-zone monitoring
- ✓ Optional reverse monitoring
- ✓ Optional cyclist monitoring
