

# STG GLOBAL VACUUM TRUCK

## SERVICE PRICING 2026

### FOR HDV3000 & HDV4500

STG Global HDV3000 and HDV4500 modules are the smaller vacuum trucks in the lineup that are built to high quality standards. For safe, cost effective and reliable operations, as well as warranty maintenance, the following service schedule is recommended:

INTERVAL	SERVICEABLE ITEMS	PRICE
Every 250 & 750 Hour Interval	Change CAT engine oil, oil filter and fuel water separator filter   Inspect and adjust   CAT engine alternator and fan belts   Inspect and adjust gerni and blower bel	\$1,038.52
Every 500 Hour Interval	Change CAT engine oil, oil filter, air filter, fuel filter and fuel water separator filter   Inspect and adjust CAT engine alternator and fan belts   Inspect gerni and blower belts   Change gerni pump oil	\$1,266.62
Every 1000 Hour Interval	Change CAT engine oil, oil filter, air filter, fuel filter and fuel water separator filter   Inspect and adjust CAT engine valve lash   Change blower oil   Change gerni pump oil   Change hydraulic filter and inspect oil condition	\$2,059.38

#### ADDITIONAL WORK CARRIED OUT ON EACH SERVICE:

Clean vacuum filters | Clean cyclone unit | Clean blower intake filter | Grease all points | Inspect gerni pump mounting bolts | Inspect high pressure water system | Inspect hydraulics lines and valves | Inspect all hoses and clamps | Inspect electrical components, wiring harnesses and lights | Complete operational check | Other identified repairs (to be billed separately)

#### Terms and Conditions

- Pricing exclusive of GST. and represents the cost per service
- Engine hours are measured according to the Caterpillar engine running time.
- If any of the service intervals are missed, the more detailed and thorough service will apply as needed to maintain the operation of the engine and module i.e. if you miss the 1000 hour service and bring the vehicle in for a 1250 hour service, the 1000 hour service will need to be conducted
- All service costs exclude guns, lances, nozzles, hoses and hose reels.
